PIER 40 TRAILHEAD – CITY KAYAK

PIER 40 TRAILHEAD – CITY KAYAK

QUESTIONS FOR CONSIDERATION

SF Bay Area Water Trail has almost 50 Trailheads throughout SF Bay

- Does the design have the right components to enable the logistics necessary to be a Launch?
- What amenities and facilities are most desirable for a Destination?

What additional facilities are desirable to support the kayak launch and how can those complement the existing kayak outfit (City Kayak) at Pier 40?

- Rentals
- Long-term Storage
- Community Programs and Classes

What other human powered watercraft activities should be captured in the design other than kayaking and stand-up paddleboarding? Bay spin classes?
