

Port of San Francisco

As-Needed Engineering Professional Services Contracts

OVERVIEW

The Port will issue a Request for Qualifications (RFQ) to solicit qualified firms that are interested in providing the Port professional engineering services for projects within the Port's jurisdictional area along the San Francisco waterfront. This RFQ will not be directed at any specific project or projects and the Port intends to select four teams of consultants capable of providing a variety of services that the Port expects to need in the coming years. The Port seeks to promote diversity within its contracting opportunities and to engage contracting teams that reflect the diversity of our City. This includes participation of businesses and residents from City communities such as Bayview/Hunter's Point, Chinatown, Mission, South of Market, Tenderloin, Visitation Valley, and Western Addition. The City recommends that bidding teams consider their composition in terms of gender, age, ethnicity, and race at all organizational levels.

The Port intends to award four (4) contracts with an initial term of four (4) years and a value of \$4,000,000 per contract.

SCHEDULE

<u>Activity</u>	Target Date*
Commence Contract Advertisement	May 2022
Pre-Bid Conference	May 2022
Due Date	July 2022

*Subject to change

ANTICIPATED SERVICES

Due to the nature of as-needed services, it is not feasible to define the precise scope of work in advance. Instead, the Port can only indicate the types of professional disciplines and work that might be required. Services may include full design services, partial specialized services, or partial design services to supplement Port staff.

Primary Categories of Work
